THE GREATET OF AMERICAN BOOK - Entrancin agents. The colors of womance of vanor an for Falk-in AND FAMINE, by Vir. Ann. S. Stop one. "As a book power, if the color of womance of vanor and for the color of the colo BROWN & CRUMP,

I'vi w vour committee w'if simply add ce an ther article. h o v facts and reasons as will, in their op n, show the p essing need of reform in the laws referred to."

If w Dinocrats Bear Direct.—The Lousing the defeat to to."

If w Dinocrats in Indiana, Ol o, and Pennsylvania and actuals take their accustomed rest to the law in New York is to Democrats in Indiana, Ol o, and Pennsylvania and actuals take their accustomed rest to the law in New York is to be provided by the law in New York in the law in New York is the law in New York is the law in New York in the law in New York is the New York is the law in New York is the law in New York is the la

The pr visio of the law in New York i The party, or rather the parties, which opens to a five of one thousand dollars at least a liable to a five of one thousand dollars at least months impresonment. Both borrower and last range be made witnesses in the civil trial.

The party, or rather the parties, which opens to rest whether the singless down or not. The lens take to the tree about seven o'clock, P. M., and stay there until the sun is well up in the last range mobover civil law—disa trous in its result. Insing late too. The first morning Dr. Baird

r ght, and a poses pon them the d ty, to regu-l to the pieces for the use of money in which the The editor of the Times says that the course

er partia y to restrictive usury laws, which wake of these elections except that Democrats po shere a sted form the main foundation of Stand up. Mr. Times, with quiet dignity; keep high estimation as the mental powers of man.

metals have an intrinsic value independent of afteratic party. metals have an intrinsic value independent of all lw. Be what we do say is, that gold and silver derive the reacturine function of being the mental for the lq i datum of all debts from the lw. This is a most important distinction, and who begins the reader to bear it in mind. There is a wind difference be ween the value of a thing and the function at may be made to perform. The coming eappears not to have perceived and noted this distinction, and the reasoning of the senort proceeds on the assumption that the the report proceeds on the assumption that the friends of the us y laws maintain that species indices derives its called from the law. The premises on which the argument of the committees—as for instance, when the New York is a very clever. t e r sts are not correct, and it is not astonish-

thend for the maximum rate of interest fixed by law.

Your et eare, however, very far indeed from making a you hadmissions. They most 1 e.y. a your hadmissions. They most 1 e.y. a your the state government ha any such right, nor is any such duty incumbent them. Money is not formed by leg slation, it does it derive any of its intrinsic value from governmental action.

The only legitimate province of any government is to do what their constituency require them, in preparing the material that the public may have priviously found by experience, to be the most suitable for a circulating med um. It is also the province of the government to take a yie of a continuous accordance of the covernment to take a yie of a continuous continuous the safety of watever may be used for currency. In regard to the cimare of money, it has been found that, of two modes, the better was and so invertible to government) with authority to stamp certain pieces of gold and silver, carried that had been prevously established under a shortly originally derived from the popule, and thus carried to them as the people' own property—and the stamp to be with a device and I ttering in retaining the value of such pieces of gold and liver.

mer i full of "Bart lab. mortiment described in the control of the

Webster, in rendering the definition of the word forcibly, if he visits Sweden at the season of the drop of water Webster, in rendering the definition of the word money, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, than the abmoney, says: "Gold and silver containing great when the days are the longest, then the abmoney is a silver containing great when the days are the longest, then the abmoney is a silver containing great when the days are the longest, then the abmoney is a silver containing great when the days are the longest, the silver containing great when the days are the longest, the silver containing great when the days are the longest when the silver containing great when the silver conta walue in a small compass and being therefore of easy conveyance, and heing also durable and little hable to diminution by use, are the most SATURDAY, OCT. 14, 1854.

SATURDAY, OCT. 14, 1854.

So have measure of commodities and professor and the metals does not add anything to their intrinsic value, and that, if all the laws in regard to the mental conviction, of the thieves who are in the habit of taking from our subscribers the morning papers.

Sinckholin from Gottenburg, 400 miles distant, in the morning, and in the afternoon went to the morning, and in the afternoon went to the representative of commodities of all kinds. The more when the morning, and in the afternoon went to the representative of commodities of all kinds. The more was a light as the sun goes down at Stockholin from Gottenburg, 400 miles distant, in the morning, and in the afternoon went to the representative of commodities of all kinds. The more was all the sense of some friends—had not taken note of time—transport of the representative of commodities. It is true as the committee says that the sense all winds and the afternoon went to the representative of commodities. It is true as the committee says that the sense all kinds. The morning and in the afternoon went to the representative of country \$\frac{1}{2}\$ and returned about midinglit; it was as light as the sun guiet in the about of each other's wants and our ability to control of the inhabitants were gone that the committee adount. The more we midd with each other's wants and our ability to the returned about midinglit; it was as light as the sun guiet in the section of its reason and and any and in the afternoon went to the representative of commodities. The morning and in the afternoon went to the representative of commodities of committee and Professor and returned about midinglit; it was as light as the sun guiet in the section of the inhabitants were gone that the general prosperity is in a time transport of the representative of control of the precision papers.

So keekly Bulletin \$\frac{1}{2} to enth to enth of the inhabitants were gone that the professor and returned about midinglit; it was as light as the sun gui
